The Business Situation

The company has six months to address a major audit finding by the Consumer Protection Financial Bureau

CASE STUDY CREDIT CARD/ BANKING

The Client

Top 10 US-based bank and top 5 US-based credit card issuer.

Audit finding requires rapid software delivery

1

Need to rollout to over 500 agents across 3 US cities and 2 Countries

2

Need to show incremental successes to satisfy the auditors

3

Our Work

CirrusLabs was engaged to provide a full Agile development team including DevOps and Automation Testing capabilities.

Used Scrum methodology to quickly demonstrate working software

Used low-code development tools to create a working prototype in 2 weeks

Automated all aspects of testing, builds, deployments, and security scanning using Jenkins on AWS.

The Business Objective

The client had clear outcomes from this initiative.

1. Within a few weeks demonstrate to the auditors a viable solution and a plan to get there by the deadline

2. Rollout a system to over **500** users in under six months

3. Implement a system which is 100% defect free as required by the Government Auditors

The Outcome

Reduce time to market for mobile by 50%

Repeatable process for 1200 people

Talent leaving startups to join team

Spotlight on infrastructure and drive to virtualize

Business and Delivery teams common understanding on how things work!
